Snuffle Mat

DIY Enrichment Toy Designed To Be
A Fun & Rewarding Activity For Animals

What You'll Need:

Non-skid Sink Mat | Fleece Fabric | Scissors or Rotary Cutter

Instructions:

Begin by cutting your fleece into 1"x6" strips.

Tie strips onto your dish mat, pulling them tightly.

Different mats will have different patterns. Do a sample section to see how much fleece works the best for your mat. The thicker your fleece the less you will be able to tie in each area and with thinner fleece, you can tie on more.
